Crafted from the very first casks from the new Wolfburn distillery, it's truly something for collectors and connoisseurs. Limited in number to 875 bottles (100 for the UK market), each individually numbered and engraved, and presented in a hand-made oak box.

The whisky inside was selected by Shane Fraser specifically to become Wolfburn's first. Using long fermentation, long slow distillation, and matured in hand-selected casks, it is genuinely something very very special.

Maximum 1x bottle per order.
