

BITTERMENS BOSTON BITTAHS

£11.20

SKU: CSBIBO

Categories: [Bitters](#), [Cocktail Ingredients](#)

Avery and Janet Glasser started making bitters in 2007. Since 2009, they've been a Delaware S Corporation. They started making the Xocolatl Mole bitters while living in San Francisco, created the Hopped Grapefruit and Tiki while living in New York City, and formulated the Boston Bittahs when they moved to Boston. Bittermens, Inc. was formed to promote a positive cocktail culture and to bring the Bittermens Bitters to market.

A peculiar combination of citrus & chamomile, recommend adding a dash to libations that you'd rather drink while relaxing outdoors on a warm summer night. Bittermens set forth to come up with a new bitter that celebrated the return of summer.

It's citrus, citrus, citrus and more citrus, supported with a heavy dose of chamomile. Try it in your favorite fizz, sour or bright tropical drink. It works extremely well with pisco and scotch as well.
