A true icon of Irish distilling, Jameson has long been celebrated for its remarkable smoothness, rich character, and time-honoured craftsmanship. First established in 1780 by John Jameson in Dublin, this legendary whiskey has stood the test of time. Produced in Midleton, County Cork, Jameson is a blend of the best pot still and fine grain whiskeys from across the world. The whiskey is then triple distilled to give it Jameson's characteristic smoothness. Finally, it is matured for at least four years in oak barrels.
