

FUJI SINGLE GRAIN WHISKEY

£62.30

SKU: JWFUSG

Categories: [Japanese Whisky](#)

The Fuji Gotemba Distillery was established in 1973 by Kirin in collaboration with seasoned Scottish, American and Canadian distillers, to master all whisky styles under one roof. Located 620 metres above sea level on the southeastern flank of Mount Fuji, the site was chosen for its clean mountain air, cool climate and exceptionally pure water. The distillery uses a unique mix of column stills to produce diverse grain whisky styles, from light and silky to rich and aromatic, all key to the depth of this single grain expression.
