Categories: Gin

Located on the historic Fonthill Estate in southwest Wiltshire, Witchmark Distillery is one of England's largest-capacity distilleries, blending scale with sustainability. Certified B-Corp in March 2025, the distillery is rooted in environmental responsibility and community values, partnering with local organisations that reflect its mission for a more sustainable future.

It sources barley from a regenerative local farm and powers production with solar energy and bio-liquid propane from eco-fuel processes. Innovative heat recovery systems minimise energy waste, while spent grains and botanicals are repurposed through anaerobic digestion to generate renewable energy. Even the packaging is mindful, the bottles are made from 100% recycled glass.
