Château Ducru-Beaucaillou stands as a jewel of Saint-Julien, producing wines of remarkable finesse and structure. Its 50 hectares of vines thrive on a unique terroir of Günzian and Pyrenean gravel—poor, well-draining soils that force deep root systems, contributing to the wine's complexity and minerality. The blend of 75% Cabernet Sauvignon and 25% Merlot undergoes meticulous vinification, with gentle extraction to preserve aromatic purity. Aged for 18 months in 100% new French oak, the wine gains structure, depth, and elegance.
