

ROKU GIN (20CL)

£11.60

SKU: GIROK020

Categories: [Gin](#), [Miniatures](#)

Roku Gin celebrates Japan's four distinct seasons and the artistry of Japanese craftsmanship. Produced by Suntory, one of Japan's most renowned distillers, it combines six signature Japanese botanicals with traditional gin ingredients, including juniper berries, coriander seeds, angelica root, and orris root. The Japanese botanicals—sakura flower and leaf, sencha tea, gyokuro tea, sansho pepper, and yuzu peel—are carefully harvested by hand at their peak to ensure maximum aromatic impact and purity.

The spirit is distilled in small batches in a traditional pot still at Suntory's distillery located in Osaka. Each botanical is steeped separately before distillation, allowing the unique flavours to develop individually before being blended harmoniously in the final spirit. This meticulous process yields a gin that is remarkably smooth, complex, yet light and refreshing.
