The Tannat grape, originally from Madiran in southwest France, has found its true home in Uruguay, where it has become the country's flagship variety. Pizzorno Family Estates, founded in 1910 by Don Próspero José Pizzorno, has been at the forefront of this transformation for more than a century. Today, the estate is led by fourth-generation winemaker Carlos Pizzorno, who continues the family's tradition while incorporating modern viticultural and winemaking techniques.
