Categories: [Agave](#), [Mezcal](#), [Los Danzantes & Alipús](#)

The Alipus project was conceived in 2000 with the intention of preserving and promoting ancestral wisdom and knowledge to create the best mezcal.

Alipus Mezcals are masterfully produced in the palenques of the maestros mezcaleros of 11 families from 6 different regions in the state of Oaxaca, Mexico, using 100% artisanal methods. They seek at all times to preserve the culture and spirit behind this magical drink and that it is transmitted from generation to generation, generating a value chain that exalts their roots and communities.
