The Burrier family have been present in Burgundy for 500 years, and Georges Burrier is now one of the outstanding wineries of the Mâconnais, in the south of the region. The winery itself is located in the village of Fuissé, in the heart of the Pouilly-Fuissé appellation, situated where the contours are most marked, around the rocky cliffs of Vergisson and Solutré, on the slopes of Mount Pouilly and the circus of Fuissé. Here the vineyard covers Jurassic clay and limestone soils and the wines reach impressive levels of intensity. The wines are aged in the centuries old maze of traditional cellars under the winery.
