Champagne Denis Salomon is a fifth-generation grower Champagne, now run by Nicolas Salomon, who works just under 5 hectares across 22 small plots in six villages, in the Marne Valley. The vineyards are all farmed sustainably under HVE certification. The clay soils of the region add richness to the wines yet the lack of malolactic and use of stainless-steel fermentation, contribute precision and freshness to the wines. Terre Amoureuse 2021 Extra Brut is made from 75% Pinot Noir and 25% Pinot Meunier, fermented in stainless steel and spends 36 months on lees. It is pure and refined, with green apple, pear, toasted bread, and a hint of spices. A structured, robust champagne yet with impressive acidity.
